

Buildings on Paper: A Brief Introduction to Reading Architectural Plans

Would you like to know more about the relationship between architectural plans and the built environment, to understand how a plan is and isn't related to the world it describes?

Join us on October 4 at 4 P.M. for **a masterclass by Carla Yanni** (Distinguished Professor, Art History, Rutgers).

This is an **IN PERSON EVENT** for the Rutgers Community (Room 6051, Academic Building West Wing.)

Carla Yanni will introduce different types of architectural evidence and lead the group through the plans of a variety of nineteenth-century buildings in this introduction to methods and materials intended to be of interest to more than architectural historians.

Carla Yanni is the author of *Victorian Science and the Architecture of Display* (2000), *The Architecture of Madness: Insane Asylums in the United States* (2007), and *Living on Campus: An Architectural History of the American Dormitory* (2019)
